

OSA-6162-63

16 DEC 1963

MEMORANDUM FOR: Chief, Materiel Division, OSA

SUBJECT: Special Equipment for Univac 1004 Processor

1. The following items are required to complete the Univac 1004 Processor installations between Project Hqs and the SOC. These additional panels are required to provide some degree of flexibility in type print-out, card punch or paper tape output. Each panel requires complicated wiring which must be accomplished well prior to use and encompasses two or three man-days of labor. Once wired there will be a minimum number of changes made to each board.

a. Four (4) connection panels with 24 bundles of wire; each. Wire lengths should be furnished in the same ratio as the standard wire complement. Price \$105.00 ea.

2. The items listed below are necessary for careful and efficient handling, carrying and storage of panels, wires, cards and tapes. These items may be purchased from the Systems Sales Co., Washington, D.C.

a. One (1) Control Panel Storage Cabinet	
Model No. 1155B-7	\$83.10
b. One (1) Storage Cabinet Base	
Model No. 1816	21.10
c. Three (3) Compartmental Wire Trays	
Model No. 1169	9.95 ea.
d. Three (3) Card Carrying Cases	
Model No. 0230	15.45 ea.
e. One (1) Carriage Tape File	
Model No. 0319	18.90
f. One (1) Wiring Stand	
Model No. 325	27.40
